When international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

A **1** following a place name indicates that the place is coterminous with a MCD.

A **2** following a place name indicates that the place is coterminous with a tribal census tract boundary.

A **3** following a place name indicates that the place is coterminous with a reservation or nontribal census tract boundary. Areas shown outside of the subject county but within the reservation or nontribal census tract boundary are shown as part of the tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian land history. Areas shown outside of the reservation or off-reservation trust lands cross state or county boundaries, the same as census tract boundaries, are shown as part of the census tract. The boundary, and, if so, constitutes a single tribal census tract entity.

A **4** following a block number indicates that the block number is repeated elsewhere in the block.
